THE MUSIC CENTER

The University’s Music Center aims at promoting musical culture and artistic education both amongst the academic community and the general public.

Every year, the Music Center organizes artistic events which gather important Romanian and foreign artists. The musical moments usually feature the Steinway & Sons piano, the most modern digital organ in the country, or the Neupert Blanchet harpsichord.

The Music Center prepares the concerts in the University’s Concerts Season, the editions of the Brassovia Chamber Music Students’ Festival, those of the Opera Gala and of the Baroque Music Festival, as well as a number of musical events which take place in unconventional spaces. Through all its projects, the Music Center desires to bring the general public closer to music and its understanding.
